LastPass Business is a best-in-class password management solution that reduces employee password friction without compromising security.

The convenience users expect.

- **Store everything in one place**
  One easy place to access everything, from apps to web logins.

- **Remember one password**
  Rather than sign up with a separate master password, employees can log in to LastPass with ADFS, Azure AD, Google Workspace, or Okta credentials.

- **Let LastPass connect you**
  Capture and fill credentials or SSO to cloud, mobile, and on-prem apps—LastPass connects to everything.

- **Organize work and personal**
  Log in throughout the day, and sort passwords to the right place automatically.

- **Generate strong passwords**
  Let LastPass create long passwords for employees, so every web service is protected by a unique password.

- **Share passwords conveniently**
  Eliminate shared spreadsheets with easy—and secure—password sharing that keeps everyone up to date.

- **Give universal access**
  LastPass works everywhere employees do, with real-time sync for all desktops, laptops, mobile and web.

The simplified control businesses need.

- **Centralize admin control**
  Centralize deployment and management of LastPass from a secure admin portal for password management.

- **Automate with user directories**
  Automate user onboarding and removal by syncing with Microsoft AD, Azure AD, Okta, OneLogin, Google Workspace or a custom API.

- **Configure custom policies**
  Get flexible, granular control with 100+ policies at the device, user, group, and organizational level.

- **Gain in-depth reporting**
  Build compliance and maintain accountability with detailed reporting logs that give actionable insights.

- **Self-service success**
  A successful implementation depends on a simple deployment and helpful, self-guided resources.

- **All-in-one solution**
  Options to advance your business’ security, seamlessly, by adding Single Sign-On or Multi-Factor Authentication to your Password Manager.
